

4th Annual Pancreas Cancer Research Workshop

2:00pm – 6:00pm, Tuesday 13th September 2016

Sofitel Melbourne on Collins – Victoria Suite 2

The Australasian Gastro-Intestinal Trials Group (AGITG) and the Australasian Pancreatic Club (APC) are again hosting a Pancreas Cancer Research Workshop, to be held in conjunction with the AGITG Annual Scientific Meeting.

This is a free of charge open meeting. We invite scientists, clinicians, nurses, allied health professionals, consumers, industry partners and anyone with a strong interest in pancreas cancer research to attend and contribute.

The proposed program focuses on discussing research ideas:

2:00pm	Convenors Welcome
2:05pm	Progress of previously presented concepts
2:15 pm	High Dose Radiotherapy for Unresectable Pancreatic Cancer Prof Edgar Ben-Josef, University of Pennsylvania
2:40 pm	Study in Metastatic Pancreas Cancer in Real Time Dr Paul Timpson, Garvan Institute of Medical Research
3:00 pm	Opportunities & Barriers for Personalised Medicine in Pancreatic Cancer Panel Discussion
3:30 pm	Afternoon Tea
3:45 pm	New Concept Presentations
4:30pm	Round Table Discussions
5:30pm	Summary of Round Table Workshops – Learnings/Path Forward

AGITG

AUSTRALASIAN GASTRO-INTESTINAL TRIALS GROUP

Australasian Pancreatic Club

Co-chaired by Dr Lorraine Chantrill (AGITG) & Dr Chris Scarlett (APC)

The Workshop aims to assist the development of embryonic research ideas into projects through:

- Developing new collaborations between researchers, health care providers, consumers and pharmaceutical companies;
- Presentation of research concepts at their emergent stage;
- Round table discussions to workshop new concepts through networking; and
- The encouragement of new ideas in Pancreas Cancer Research.

Delegates are invited to present new concepts for feedback and discussion with the aim to further develop them into collaborative research projects. The focus is on building relationships that may enhance success of obtaining grant funding. If selected, your concept could also be eligible for further development and for presentation at the New Concepts Symposium at the AGITG 2017 Annual Scientific Meeting, and potentially suitable for an AGITG Innovation Fund Grant. The deadline for submissions is COB 17 August.

For more information on submitting a concept, or to register visit:

www.agitg.org.au or www.pancreas.org.au

Registration is free, but seats are limited.

Consumers are encouraged to attend and have been involved in planning the workshop.
